The Contemporary Music Ensemble of the University of Toronto is dedicated to introducing performers and audiences to the newest of the new music. Student performers work on the intricacies of contemporary music, coached and conducted by composer/conductor Gary Kulesha. Concerts are intended to be lively, living presentations of interesting, challenging, and occasionally amusing new works by, for the most part, living composers. The CME also has a commitment to performing works by the staff composers of the University of Toronto, as well as works by distinguished composition students. Since many of the young performers now studying at the U of T Faculty of Music will find their first professional engagements in the new music community, this activity is excellent preparation for careers in music.
